

## IRIS

Product Number: 53-106-48

The iris uses heavily textured clear thick glass and a sculptural cast bronze heat sink to create a fixture that is a combination of ancient crafts and forward thinking. The glass and the bronze are hand shaped and finished so that each light is one of a kind. These LED fixtures can be mounted to the wall or ceiling. Hand blown and shaped in lead free crystal. No molds are used, and each glass shape is unique. Designed and made by Siemon & Salazar in California. Signed.

### SPECIFICATIONS
